

PERSONAL INVITATION AND SAVE-THE-DATE FOR THE ONLINE PUBLIC EVENT

Innovative Wind Governance Practices: Challenges and Solutions to Accelerate a Just and Sustainable Wind Energy Deployment

31th of January 2023, 11:30 – 12:45 CET

Organised by the Horizon Europe project, JustWind4All

The Horizon Europe project, **JustWind4All**, composed of 12 European partners led by the Dutch Research Institute for Transitions (DRIFT), aims to **support the acceleration of on- and offshore wind energy by simultaneously enhancing just and efficient energy governance.**

Delivering on the EU renewable energy targets requires installing more and larger on- and offshore wind energy technologies and speeding up planning and deployment processes whilst considering and balancing diverse social, environmental, technological and economic effects. Thus, accelerating wind energy deployment in a sustainable and just manner must encompass structures and processes in decision-making and in citizen participation.

JustWind4All is addressing 4 key challenges related to effective and just governance of wind energy:

- Knowledge Gaps
- Justice Deficit
- Unsuitable Policy Frameworks
- Unlocking Novel Resources

To facilitate an exchange of knowledge and experience between different energy governance actors, it is our pleasure to invite you to join the **JustWind4All project's public kick-off event** that will take place online on **31st January 2023 from 11:30 a.m.- 12:45 p.m. CET.**

AGENDA	
11:30-11:45	Welcome and Introduction to JustWind4All
11:45-12:15	Panel Discussion: Challenges & Solutions of accelerating just, sustainable wind energy
12:15-12:40	Plenary Q&A
12:40-12:45	Next steps and how to stay engaged with JustWind4All
